## **NEWS RELEASE**

### **Orca Gold Granted Water Permit for its Block 14 Gold Project in The Republic of The Sudan**

**Vancouver, British Columbia, February 07, 2018 – Orca Gold Inc. (TSX.V:ORG)** (“Orca” or the “Company”) is pleased to report that it has received from the Government of The Republic of The Sudan an exclusive permit for the exploitation of water from the Area 5 aquifer (the “Water Permit”), first discovered by the Company in May 2017 (see Company News Release dated May 30, 2017).

The Water Permit is a strategic permit in the development of a gold mine on Block 14. It entitles the Company to extract the necessary water to support a 6 Mtpa mining and processing operation, which is the basis of the Feasibility Study in progress.

The Water Permit covers an area of 980km<sup>2</sup>. Through drilling and pump testing, Orca defined a resource of 100 million cubic metres of fresh water within an area of 135km<sup>2</sup>. The aquifer is open in all directions and would be available for additional production, if required (See Figure 1).

Commenting on the receipt of the Water Permit, Rick Clark, CEO and Director of Orca said: “A determining factor in developing a mine in the desert, in addition to finding an ore body, is water. With the granting of this exclusive water rights over the Area 5 aquifer, the Government of Sudan has confirmed its full support of Orca and the development of a commercial gold operation at Block 14. With this key permit, we will now move towards the completion of a Feasibility Study, which contemplates a processing operation of 6 Mtpa. As we continue to expand the gold resources at Block 14 through ongoing drilling, we look forward to delivering the results of the Feasibility Study based on this robust water supply.”

#### Cautionary Statement Regarding Forward-Looking Information

*This press release contains forward-looking information and forward-looking statements within the meaning of applicable Canadian securities laws, including statements regarding Orca's (the "Company", the "Corporation", "we" or "our") plans and expectations relating to the Block 14 project ("Block 14") in northern Sudan and the revised Preliminary Economic Assessment (the "Revised PEA") and Feasibility Study ("FS") currently being completed and/or conducted by the Corporation. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Statements concerning mineral resource estimates may also be deemed to constitute "forward-looking statements" to the extent that they involve estimates of the mineralization that will be encountered if the property is developed. The assumptions, risk and uncertainties outlined below are non-exhaustive. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results, performance or achievements of the Corporation, or industry results, may vary materially from those described in this press release.*

*Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, identified by words or phrases such as “expects”, “anticipates”, “believes”, “plans”, “projects”, “estimates”, “assumes”, “intends”, “strategy”, “goals”, “objectives”, “potential”, “possible” or variations thereof or stating that certain actions, events, conditions or results “may”, “could”, “would”, “should”, “might” or “will” be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements.*

*Forward-looking statements and forward-looking information are not guarantees of future performance and are based upon a number of estimates and assumptions of management at the date the statements are made including without limitation, assumptions about the following (the “Forward-Looking Factors”): future prices of gold and other metals; successful exploration, development, and production of Block 14; the timing and completion of the DFS; the timing and likelihood of a production decision; performance of contractual obligations by counterparties; operating conditions; political stability; obtaining governmental approvals and financing on time; financial projections and budgets; obtaining licenses and permits; government regulation of the Corporation’s mining activities; environmental risks and expenses; market conditions; the securities market; price volatility of the Corporation’s securities; currency exchange rates; foreign mining tax regimes; insurance and uninsured risks; financial projections and results; competition; availability of sufficient capital, infrastructure, equipment and labour; dependence on key personnel; dependence on outside parties; conflicts of interest; litigation; land title issues; local community issues; estimation of mineral resources; realization of mineral resources; timing and amount of estimated future production; the life of Block 14; reclamation obligations; changes in project parameters as plans continue to be evaluated; and anticipated costs and expenditures and our ability to achieve the Corporation’s goals. While we consider these assumptions to be reasonable, the assumptions are inherently subject to significant business, social, economic, political, regulatory, competitive and other risks and uncertainties, and contingencies, many of which are based on factors and events that are not within the control of the Corporation and there is no assurance they will prove to be correct.*

*Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors that could cause actual events or results to differ from those reflected in the forward-looking statements, including, without limitation known and unknown risks, uncertainties and other factors relating to the Forward-Looking Factors above, and those factors disclosed under the heading “Risk Factors” in the Corporation’s documents filed from time to time with the securities regulators in the provinces of Canada.*

*In addition, a number of other factors could cause the actual results, performance or achievements of the Corporation to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information, and there is no assurance that the actual results, performance or achievements of the Corporation will be consistent with them. For further details, reference is made to the risk factors discussed or referred to in the Corporation’s annual and interim management’s discussion and analyses on file with the Canadian securities regulatory authorities and available electronically on the SEDAR website at [www.sedar.com](http://www.sedar.com). Although the Corporation has attempted to identify important factors that could cause actual actions, events, results, performance or achievements to differ materially from those described in forward-looking statements and forward-looking information, there may be other factors that cause actions, events, results, performance or achievements not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Such forward-looking statements and information are made or given as at the date of this press release and the Corporation disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required under applicable securities law. The reader is cautioned not to place undue reliance on forward-looking statements or forward-looking information.*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
